

VSP 01/2022

Laboratory Technician

Full time October 2022

The Opportunity:

Atlantis College is seeking to hire a laboratory technician to work with the Bio & Allied Health Science team in the day to day running of the lab for the Bio & Allied Health Sciences programme. The candidate will be expected to provide high quality technical support supporting research and undergraduate teaching. The role includes overseeing the organisation and daily running of laboratory activities. The candidate will be required to apply a range of management, material science, and biological skills to support the students and researchers.

Main Duties and Responsibilities:

1. Be a first point of contact for lab users and contribute to the overall smooth and efficient running of the lab to ensure an excellent experience for service users.
2. Provide in-depth technical knowledge, using relevant skills, knowledge, initiative and judgement to interpret student needs and deliver expert input and solutions.
3. Set up, operation and testing of scientific laboratory equipment. Diagnose faults and troubleshoot day-to-day problems carrying out appropriate maintenance and contacting relevant service providers as required. Source and purchase equipment as directed.
4. Advise and assist staff and students on design, development, preparation and construction of experiments. Keep abreast of new techniques, implementing improvements to procedures as well as researching the safety data.
5. To contribute to management of adherence to health and safety policies and relevant safety regulations.
6. Supervise undergraduate students in line with a school objective to encourage skills transfer and personal development.
7. To support undergraduate teaching laboratories ensuring all required equipment and materials are available for laboratory teaching.

Your skills and attributes for success:

- Holder of a Bachelor Degree or Master degree in the Biology or related field such as Biomedical Science, Biotechnology or Chemistry.
- Setting up, maintaining and repairing laboratory equipment/machinery
- Excellent interpersonal skills and team working
- Excellent IT skills in e mail, spreadsheets, word processing, databases

As a valued member of our team, you can expect:

An exciting, positive, creative, challenging and rewarding place to work. We will give you support, nurture your talent and reward success. You will benefit from a competitive salary.

All candidates should send their CV and a cover letter to info@atlanticcollege.com no later than **30th August 2022**.
